

Cold Email + Google Maps System

For Aiden, Stacking Cash (stacking.cash) · From Hassan, CrackClay · July 17, 2026

Goal: Open LinkedIn and cold email as a working channel for non-captive life insurance agents. Find message-market fit in 2 months, then move to retainer.

PHASE 1 — 2 MONTH TEST

- **Data:** Google Maps scrape for non-captive agents (untapped, not in Apollo, ZoomInfo, Cognism)
- **Segmentation:** captive vs non-captive filtered via enrichment
- **Infra:** 270 pre-warmed mailboxes, live campaigns in 4-5 days
- **Automation:** Claude Code + MCP for parallel angle testing (audience, copy, offer)
- **Reply routing:** BCC your main mailbox, leads land in your team from Day 1
- **Domain:** sender domains redirect to stacking.cash

Weekly output: 3-5k contacts, 20-30k sends, Friday report.

TECH BUDGET (PHASE 1)

Item	Cost/mo
270 pre-warmed mailboxes	~\$405
Sequencer (Instantly / Smartlead / PlusVibe)	\$97-197
Google Maps extraction	included
Email verification	~\$50
Claude Code seat	~\$100
Total	~\$650-750

You own every account.

SERVICE FEE

Phase 1: \$1,700/mo × 2 months

Phase 2 retainer: scoped after winner is found, rough range \$2,500-4,000/mo

COMPLIANCE

US gray area, not black. CAN-SPAM covered (sender identity, one-click unsubscribe, no misleading subjects). No GDPR geos touched.

IF IT DOESN'T HIT

You keep the infra, data, winning angles, and the Claude Code system. No lock-in.

NEXT STEP

Say yes → mailboxes provisioned this weekend → first campaigns live Day 5-7.
